F. Personal/Audience Comments

Molly McGee:

Ms. McGee addressed City Council regarding the proposed site plan for the new Condit Elementary School campus ("Condit"). She advised that one of Condit's guiding principles was to be "community-based." In Ms. McGee's opinion, the community-based connection for Condit had not been established effectively. She indicated that few residents had known about or had the opportunity to learn about the plans for Condit.

One of Ms. McGee's major concerns was the 66 space parking lot proposed to be located on Third Street and its negative effect on traffic flow, the safety of children and residents, and on the aesthetics of a campus located on the edge of a residential community that shared joint use parking with the City.

In Ms. McGee's opinion, the current proposed parking on Third Street would increase traffic within the residential areas between Jessamine Street and Linden Street during school days and during school events. Additionally, Ms. McGee believed the current proposed parking on Third Street would increase traffic significantly with any community event that took place at City Hall, the City's green space, Condit green space, and Paseo Park, and would create extra pedestrian traffic through school grounds during the events.

HISD had suggested that getting the carpool line off of Third Street and into the parking lot would make crossing surrounding streets safer for the children and decrease the number of cars that parked along Jessamine Street to Linden Street for pick up and drop off. Ms. McGee stated that she believed the proposed parking on Third Street would not enhance the safety of children as children would need to pass in front of cars in the carpool line and cars accessing parking spaces. Ms. McGee urged City Council to consider three points regarding the current proposed Condit site plan and to communicate the points to HISD.

Point 1: Leave the current parking at the corner of Linden Street and South Rice Avenue.

Point 2: Leave the proposed parking at the corner of Jessamine Street and South Rice Avenue.

Point 3: Delete the proposed parking lot along Third Street and allow minimal parking by the main entrance to the campus.

In closing, Ms. McGee referenced an alternate site plan that she had provided earlier to City Council. The alternate site plan would retain the same number of slots that the City had mandated and alleviate the concerns that many residents had about traffic, safety, and aesthetics.

Anne Wallace:

Ms. Wallace addressed City Council and indicated that she was absolutely opposed to the parking lot proposed by HISD for the Condit Elementary School on Third Street. Ms. Wallace advised that residents already had a difficult time leaving or reaching their homes due to traffic congestion in the area. Allowing parking on Third Street would exacerbate the problem.

Karin Diaz:

Ms. Diaz addressed City Council and referenced the proposed Condit parking lot on Third Street. She advised that she could not understand how a parking lot dumping into a neighborhood was good for the neighborhood. She echoed the comments made by Ms. McGee, and indicated that she was definitely against the proposed Third Street parking lot.

Mark Cummings:

Mr. Cummings addressed City Council and spoke in favor of the alternate site plan for Condit parking presented earlier by Ms. McGee.

Don Gullquist:

Mr. Gullquist echoed the comments made by the previous speakers.

Mark Sass:

Mr. Sass addressed City Council and expressed serious concerns about HISD and the City not looking out for the interest of its constituents and taxpayers. He indicated that when Laurel Street went away, residents were concerned about losing their access to South Rice Avenue. After the green space, now known as Condit Park, was developed, residents enjoyed it.

HISD's plans to reconstruct Condit Elementary School would force the neighborhood to look at a two-story building with 40-50 feet of concrete in front of it. The plan called for one of the worst possible situations that the school could probably have. Mr. Sass also referenced the difficulty he had getting out of his driveway during school hours, noting that adding 66 spaces on Third Street was not a good situation. In closing, Mr. Sass advised that he, too, was concerned for the safety of Condit students, as those students would have to cross a parking lot with a line forming in it for pick up and drop off and then cross Third Street and another set of traffic.

Leslie Little:

Ms. Little addressed City Council regarding the proposed parking lot on Third Street for Condit. Ms. Little advised that she had been a part of Condit for many years, with service to various Parent-Teacher Organization (PTO) board positions, as a parent, and as a member of the City's Parks and Recreation Advisory Board.

Reference was made by Ms. Little to the many volunteer hours worked by parents and the PTO to establish the green space that was now adjacent to the school and known as Condit Park. Her role to protect that green space continued with six years of service on the City's Parks and Recreation Advisory Board. She advised that her comments and position were not brought to the table lightly or without experience.

Ms. Little urged City Council to consider the following points:

Point 1:

Leave the current parking lot onsite at Linden Street and South Rice Avenue.

Point 2:

Leave the proposed parking lot at the corner of Jessamine Street and South Rice Avenue.

<u> Point 3:</u>

Delete the proposed parking lot on Third Street, leaving a minimal amount of parking spaces at the new main entrance for visitors.

In closing, Ms. Little favorably recognized the steps already taken by HISD and the City Council to reduce the number of spaces required on the lot and to continue the Joint Use Agreement between the City and HISD.

Eddy Donalson:

Mr. Donalson addressed City Council and indicated his desire for the parking lots to remain where they currently were and not on the residential side. He echoed comments made by Molly McGee and Leslie Little.

Mary Goodman:

Ms. Goodman indicated that she wished to echo all of the comments made earlier this evening by residents.

George Williams:

Mr. Williams addressed City Council and indicated that he and his wife had chosen to live in Bellaire because of the City's family-friendly environment. A parking lot on Third Street inside the neighborhood was simply contradictory to the approach that the City had so eloquently taken in the past. Mr. Williams stated that he was deeply concerned about placing a high volume parking lot inside the neighborhood where his small children would be playing. It would convert the neighborhood streets from a warm place for families to a freeway or a vessel to connect to the freeway.

He urged City Council to reject the site plan as proposed by HISD and to modify that plan so that the parking lot was placed on South Rice Avenue.

G. Report(s)

1. City Manager's Report - Paul A. Hofmann, City Manager

a. City Manager's Report dated March 3, 2014, regarding Internal Operations (Bellaire Police Department Strategic Planning and Creation of Staff Teams), Meeting Updates (Bellaire Business Alliance Meeting and Future Meeting with Uptown Houston District), Training (Boards and Commissions), Traffic/Drainage Issues (Baldwin Street Traffic Study and Ferris Street Drainage and Traffic Concerns), and Major Projects Update (Central Water Project Schedule).

City Manager Paul A. Hofmann presented the City Manager's Report dated March 3, 2014, to members of City Council. Following questions of City Manager Hofmann regarding his report, action was taken to accept the report into the record as presented by City Manager Hofmann.

a. Delinquent Collection Activity Report - Michael Darlow, Partner, Perdue, Brandon, Fielder, Collins & Mott L.L.P.

Michael Darlow, Partner, Perdue, Brandon, Fielder, Collins & Mott, L.L.P., provided a "Delinquent Collection Activity Report" to members of City Council. The report covered property tax collections, utility account collections, and municipal court fee collections.

Mr. Darlow provided statistical information with respect to the percentage of monies owed to the City of Bellaire that had been collected or in the process of collection. With respect to municipal court fee collections, Mr. Darlow indicated that the bulk of monies owed to the City of Bellaire were from persons who resided in Texas. An overview of the collection procedures followed by Perdue, Brandon was also given.

Following questions of Mr. Darlow by members of City Council, action was taken to accept the "Delinquent Collection Activity Report," as presented by Mr. Darlow, into the record.

Amendment (No. 2) to Main Motion:

Mayor Pro Tem Amanda B. Nathan moved to amend *Appendix A* to the referenced ordinance as follows:

Section 24-536, Corridor Mixed-Use District, Subsection C, Development Standards, (2), Size and area, a) Churches, 5) Minimum required yards, (d) Height-setback plane for side and rear yards, as marked below:

Where a property is at a boundary of the CMU district and an abutting residential property is in an R-1, R-3, R-4 or R-5 district <u>either abuts or is</u> <u>directly across an alley from the subject property in the CMU district</u>, the minimum yard toward the abutting property <u>or alley</u> shall be fifteen (15) feet. Additionally, any portion of the principal building that exceeds 27 feet in height, including any "additional height" extensions, shall be set back an additional amount, computed as two (2) feet from the 15-foot building line at ground level for each one (1) foot of additional building height above 27 feet. This ratio establishes a height-setback plan as illustrated in **Figure 24-536.A**.

Additionally, in situations described above, the screening and buffering required between certain uses in Section 24-513.D. shall be supplemented by planting of a row of trees along the side or rear property line toward the abutting residential property <u>or alley</u>. This shall involve trees of forty-five (45)-gallon size spaced a maximum of ten (10) feet on center along the property line. The supplemental tree planting shall not count toward any other minimum site landscaping requirements in this Chapter.

Planting of trees within any utility easements along the property line shall meet any applicable Department of Public Works standards to protect underground and overhead utilities, and any utility company policies with regard to allowable screening methods and the location and height of screening. Where compliance with the supplemental tree planting requirement is not possible due to utility conflicts, the administrative official shall work with the applicant during the site plan review process, or with the applicant and the Planning and Zoning Commission for planned development applications, to seek an alternate solution which is not in conflict with the purposes of this subsection.

i. On properties subject to the height-setback plane, no accessory structure shall be located within the 15-foot yard area toward the abutting residential property <u>or alley</u>. Any accessory structure on the subject property shall comply with the height-setback plane requirements as applied to the principal structure, in addition to the requirements of Section 24-510.

Section 24-536, Corridor Mixed-Use District, Subsection C, Development Standards, (2), Size and area, b) Schools, 5) Minimum required yards, (d) Height-setback plane for side and rear yards, as marked below:

Where a property is at a boundary of the CMU district and an abutting residential property is in an R-1, R-3, R-4 or R-5 district either abuts or is directly across an alley from the subject property in the CMU district, the minimum yard toward the abutting property or alley shall be fifteen (15) feet. i. On properties subject to the height-setback plane, no accessory structure shall be located within the 15-foot yard area toward the abutting residential property <u>or alley</u>. Any accessory structure on the subject property shall comply with the height-setback plane requirements as applied to the principal structure, in addition to the requirements of Section 24-510.

Section 24-536, Corridor Mixed-Use District, Subsection C, Development Standards, (2), Size and area, e) Planned Development, 5) Minimum required yards, (a), as marked below:

Where a property is at a boundary of the CMU district and an abutting residential property is in an R-1, R-3, R-4 or R-5 district either abuts or is directly across an alley from the subject property in the CMU district, the minimum yard toward the abutting property <u>or alley</u> shall be fifteen (15) feet. Additionally, any portion of the principal building that exceeds 27 feet in height, including any "additional height" extensions, shall be set back an additional amount, computed as two (2) feet from the 15-foot building line at ground level for each one (1) foot of additional building height above 27 feet. This ratio establishes a height-setback plan as illustrated in **Figure 24-536.A**.

Additionally, in situations described above, the screening and buffering required between certain uses in Section 24-513.D. shall be supplemented by planting of a row of trees along the side or rear property line toward the abutting residential property <u>or alley</u>. This shall involve trees of forty-five (45)-gallon size spaced a maximum of ten (10) feet on center along the property line. The supplemental tree planting shall not count toward any other minimum site landscaping requirements in this Chapter.

Planting of trees within any utility easements along the property line shall meet any applicable Department of Public Works standards to protect underground and overhead utilities, and any utility company policies with regard to allowable screening methods and the location and height of screening. Where compliance with the supplemental tree planting requirement is not possible due to utility conflicts, the administrative official shall work with the applicant during the site plan review process, or with the applicant and the Planning and Zoning Commission for planned development applications, to seek an alternate solution which is not in conflict with the purposes of this subsection.

i. On properties subject to the height-setback plane, no accessory structure shall be located within the 15-foot yard area toward the abutting residential property <u>or alley</u>. Any accessory structure on the subject property shall comply with the height-setback plane requirements as applied to the principal structure, in addition to the requirements of Section 24-510.

Section 24-537, Urban Village-Downtown District (UV-D), Subsection C, Development Standards, (2), Size and area, a), Single-family dwellings, attached, 7) Required yards, (b), Side and rear yards, as marked below:

i. Where a property is at a boundary of the UV-D district and an abutting residential property is in an R-1, R-3, R-4 or R-5 district <u>either abuts or is</u> <u>directly across an alley from the subject property in the UV-D district</u>, the minimum yard toward the abutting property <u>or alley</u> shall be fifteen (15) feet. Honorable Mayor and Members of the City Council

FROM:

Paul A. Hofmann, City Manager

DATE: May 20, 2014

SUBJECT: FY 14 Management Projects

The Department Directors and I have been working to develop effective and efficient internal reporting processes. Those processes, all of which are focused on accomplishing the City Council's priorities, are centering on:

- the definition and creation of cross functional staff teams,
- capital projects, and
- management projects.

I provided a brief overview of staff teams during my last report. The teams have an ongoing responsibility to produce recommendations and positively impact the organizational culture. We are also developing processes for the recurring review and reporting on each funded capital project.

Attached is our first attempt at describing our FY 14 Management Projects. This project list does not attempt to capture everything we're doing. We've defined Management Project as an initiative that:

- Is of particular interest to the City Council; and/or,
- Represents an accomplishable, tangible end product (not a routine, ongoing work effort); and/or,
- Requires a separate resource allocation.

Each project will have a scope statement, which will describe the charge to the project team, a project leader, project team, and a work plan (tasks and schedule). Each project will tie directly to one or more of the City Council's priorities.

Recurring reports to Council on the status of management projects can be an effective way for Council to stay informed and provide direction as appropriate. Much of our budget discussions will revolve around FY 15 projects that we're already beginning to identify for future presentation to the City Council.

I would welcome Council feedback on the extent to which you believe our list is complete, and the value of the information.

City of Bellaire FY 14 Management Projects

SCHEDULED ACTION ITEM (ID # 1129)

Meeting: 03/24/14 07:00 PM Department: Finance Administration Category: Report Prepared By: Diane K White Department Head: Linda Symank DOC ID: 1129

Item Title:

Finance Report for the City of Bellaire, Texas, covering the period ended February 28, 2014, and including discussion of revenues and expenditures in the General Fund, Enterprise Fund, Debt Service Fund, Vehicle, Equipment, and Technology Fund, and Capital Improvement Program Fund, as well as a discussion of statistical data.

Item Summary:

In accordance with the Charter of the City of Bellaire, Article VII, Section 4, Paragraph 3, as amended November 7, 2006, please find attached the monthly financial report for the Five Month ended February 28, 2014.

Revenues for the General Fund are at 76.87% of budget compared to 73.88% last year. Current Property Tax collections are ahead of last year - 99.25% compared to 97.8%. Current Property Taxes are budgeted at 99% of assessment. Sales Tax percent collected is also higher due to the receipt of an audit adjustment in the amount of \$371,994. Net of the audit adjustment, sales tax is down 2.5% from last year as of March. Franchise Fees are higher due to the timing of the receipt of our monthly electric payment. Overall General Fund revenues are good.

Water sales in all categories for the first quarter of FY2014 were down from last year. We've seen higher sales in January and February, but have not recovered completely from the first quarter. Currently water sales are trending lower than normal when compared to the past three years. Wastewater is slightly up from last year. We are computing new wastewater rates this month using winter averaging. We average usage from November through February, dropping the lowest month. The new rates will be billed in March for February usage. We will continue to closely monitor the Enterprise Fund's revenue.

Operating expenditures in both the General Fund and the Enterprise Fund are currently within their appropriated budgets. Increases/decreases over last year are due to salary and benefit changes or timing of maintenance expenditures. We've had two General Fund employees retire and notification of a third retirement that will require a budget amendment to cover their retirement pay and the City Manager's contract payment. We've also received notification from our meter reading firm requesting a significant rate increase. This service will be rebid and a new rate will impact Utility Billing in the Enterprise Fund.

2013 Recycles Fest Follow up Report

Honorable Mayor and City Council 7008 South Rice Avenue Bellaire, TX 77401

2013 Bellaire Recycles Fest Follow up Report

Approximately 550 citizens in the area took advantage of free electronics, metal recycling, and paper shredding, and family-friendly activities at the Fifth Bellaire Recycles Fest on Saturday, November 2, 2013, from 9:00 am to 1:00 p.m. The Fest was held in conjunction with America Recycles Day and Texas Recycles Day – both annual campaigns to raise awareness and educate citizens on the economic, social, and environmental benefits of recycling, conservation, and sustainability practices. Reducing consumption and waste, finding alternative ways to dispose of unwanted items, and educating our citizenry are all important to increase environmentally-responsible behavior in Bellaire.

Six organizations collected items at this year's Fest for reuse or recycling. CompuCycle collected approximately 10,104 pounds of e-waste for recycling; A1 Shredding, Inc. collected approximately 3,500 pounds of paper for shredding and recycling. J D Metals collected an estimated 4,000 pounds of scrap metal and other materials for recycling. Additionally, Faith Lutheran Church Bellaire collected coats, jackets, blankets and sleeping bags for Houston area homeless; Bellaire Lions Club collected a record number of eyeglasses; and My Green Planet collected over 2,000 pounds of clothing, shoes, belts, purses, small household appliances and toys. The convenient drive-thru drop-off area at Condit Elementary School had a steady stream of vehicles throughout the day. We not only provided a much-appreciated community service, but also educated citizens about other means of disposing of unwanted items instead of sending them to the landfill.

This year, we partnered with the Gulf Coast Regional Blood Center and added a blood drive. We had 15 people present to donate blood, which is a very promising start to a new feature of the Fest.

1.G.3.a

Attendees enjoyed visiting with vendors offering environmentally-conscious goods and services, as well as local Bellaire businesses. Pets found new families through Friends for Life Mobile Adoption Vehicle. Other highlights include food from various businesses like Snap Kitchen, "What's Up Cupcake?" food truck, Bellaire Honey Company. Additionally, there were many bicycles to ride, two electric vehicles on display, and a rock wall to climb. Attached is a list of the organizations that attended and participated in the Fest. Music was provided by AC Wolf DJ Services. In our effort to include other area organizations in the event, two local scout troops had booths, along with the Bellaire Building and Standards Commission and Bellaire Cultural Arts Board.

The Environmental & Sustainability Board had educational displays for what is and is not accepted in the Bellaire Curbside Recycling Program. There were lots of kid-friendly activities including a rock climbing wall, bouncy house, face painting, and Smash-A-Can. The Bellaire Cultural Arts Board co-sponsored a great ART and PHOTO CONTEST— EART H CONTEST — for kids aged 5 to 18 years. Entries in each division were judged on the following criteria: use of recyclable materials, environmental theme/message, creativity, composition, and originality. The contest had numerous entries that made for difficult decisions for the judging committee consisting of Bellaire Cultural Arts Board members Terry Leavitt-Chavez and Stephanie Goldfield, and former Bellaire Environmental and Sustainability board member, Brenda Cauthen. First place winners in the Art contest divisions won \$25 gift cards.

The Board appreciates the help of several community volunteers and over 40 volunteers from Duchesne Academy, DeBakey High School for the Health Professions, Bellaire High School, Strake Jesuit, and Carnegie Vanguard High School. These volunteers provided over 100

hours of service to set-up the Fest, clean-up, assist with unloading materials from cars, lead kids' activities, help with vendors' art projects, and much more.

Hosting the Fest required extensive dedication and hands-on work from Board members and other volunteers who spent more than 200 hours planning and organizing the Fest. Two workshops were held to make sure every aspect of the event was covered – from making phone calls, visiting potential sponsors, sending emails, securing participants, designing and purchasing fliers, banners and signs, planning kid-friendly activities and the Art and Photo Contest, arranging publicity, purchasing supplies, and much more. The Fest would not have been achievable without the hard work of Board members.

This year's Fest was bigger and better than ever, and was a tremendous success! Once again, the City set itself apart as a community that educates and helps its residents to preserve Bellaire's beauty for future generations. The Fest is an important event to remind residents and surrounding community members of their responsibility to take care of the environment and that employing more sustainable practices is an easy thing to do. Many of the benefits of the day are measurable, such as the items collected for reuse and recycling; however, there are many other benefits that go unnoticed and have long-term effects on the community. For example, getting residents' children involved and caring about sustainable practices is likely to last a lifetime and will also influence the decision-making and behaviors in a household.

The Board is grateful for the City's support for the Fest. Without the help from Parks & Recreation, Council, and the City Manager, we could not have put on a Fest of this scale. Special thanks from the Board to Joe Keene, Todd Gross, and everyone at Public Works must be given; their diligent and tireless efforts to go above-and-beyond ensured that the Fest was a highlight for the City. We are encouraged to hold another Fest in 2014 based on the success of the Fest in 2013.

This report is submitted on behalf of the entire Environmental & Sustainability Board.

Item Title:

Consideration of and possible action on the adoption of an ordinance of the City Council of the City of Bellaire, Texas, appointing Jerel S. Twyman as Associate Judge of the Municipal Court of the City of Bellaire, Texas, for a two-year term commencing on the 1st day of April, 2014, and expiring on the 31st day of March, 2016.

Item Summary:

The term of office for Associate Judge Jerel S. Twyman of the Bellaire Municipal Court will expire on March 31, 2014.

Legal Authority/Background:

In accordance with *Article II, The Council, Section 14, Municipal Court,* of the *Charter of the City of Bellaire, Texas,* as amended November 7, 2006, "The City Council shall appoint a Municipal Court Judge to serve a term as it shall prescribe and such other associate judge or judges as it shall determine to be necessary and appropriate, for such terms as it shall provide."

With respect to the term of appointment, state law sets a definite term of office for judges of a municipal court of record as two or four years (*Texas Government Code, Title 2, Judicial Branch, Subtitle A, Courts, Chapter 30, Municipal Courts of Record, Subchapter A, General Law for Municipal Courts of Record, Section 30.00006, Judge*). It has been the practice of the City of Bellaire to appoint its municipal court judges for a two-year term of office. In accordance with that practice, an ordinance has been prepared for City Council consideration and action to appoint Jerel S. Twyman as Associate Judge of the Bellaire Municipal Court for a two-year term commencing on the 1st day of April, 2014, and expiring on the 31st day of March, 2016. Judge Twyman has served as an Associate Judge for the Bellaire Municipal Court since April 1, 2008.

Source of Funding:

General Fund - the compensation for the Associate Judge of the Bellaire Municipal Court was set by ordinance on April 1, 2013 (Ordinance No. 13-022). The current compensation for the Associate Judge is \$625 per month and \$200 per docket.

Recommendation:

Action as City Council deems appropriate.
